1 Summary

I am Ruiqing Kuang, currently pursuing an M.S. in ECE at the University of Washington, with a B.Eng. in Computer Science from Yunnan University. I interned at Cyber Partner AI, developing Python tools for text proofreading and dataset enhancement using OpenAI's API. My technical projects include a full-stack resume generator and a human resource management system, utilizing Java, Flask, MongoDB, and Docker. I am proficient in Java, Python, Spring Boot, and Redis, with a focus on creating scalable systems and optimizing performance for web applications.

2 Education

M.S. in Electrical and Computer Engineering
University of Washington
Seattle, WA
(2024-09 - 2026-06)
Software Engineering, Data Structures, Algorithms Analysis, Database

3 Experience

Cyber Partner AI
Software Engineer Intern
Remote
(2024-08 - 2024-10)
Developed a Python tool to proofread LLM-generated text, and automatically saving the result with highlighted revisions.

4 Projects

Resume Formatting Web Application
(2024-09 - 2024-10)
Developed a full-stack web application that allows users to generate customized resumes in PDF format.

5 Skills

Java, C++, Python
